MESSAGE

I have great pleasure in placing my heartiest wishes for the success of website launched by the Himalayan Institute For Environment, Ecology & Development- (HIFEED), Ranichauri, Tehri Garhwal.

I see the bright future of Uttarakhand lie in the development and empowerment of its rural people. The Government alone can not achieve this beautiful dream of flourished Uttarakhand, for this, all its people have to come forward and join hands for a better tomorrow. The Organizations like HIFEED can be cited as a good effort on people's behalf, for a substantive achievement. The active participation and interest showed in by the people in various activities organized at campus and at field have generated employment among rural household. I expect more of such efforts from other Organizations/groups too for contributing in making this State specially the rural Uttarakhand a better place for the coming generations.

With my best wishes to Mr. Kamal Bahuguna, Executive Director of HIFEED and HIFEED family on launching of this website, I hope that people in India and throughout the world will be able to acknowledge the valuable and precious work of art and handicraft going on in the hills of Uttarakhand and will be benefited by it. I wish good luck and success in the future endeavours.
